

Sports Premium Impact Report 2025-2026

+ Sports Premium Strategy 2026-2027

Sports Premium is allocated to schools based on the number of pupils on roll in Years 1 to 6 recorded in the January Census.

Southgate School received two instalments- £8225 in October and £8225 in April to use across the academic year to make additional and sustained improvements to the quality of PE and sport on offer and to facilitate pupils being active throughout the school day. An outline of our sports premium spending is in the table below: £16,410 total.

Cost:		Aims:	Impact:
£3,948.00	Membership of SKPace	- To provide a sustained range of enrichment opportunities for a wide range of pupils. These will be both accessible and engaging for all pupils. - To upskill older pupils to allow them to support younger pupils to access an increasing range of sporting activities and promote inclusivity.	Across 2025-2026, 9 classes accessed Enrichment sessions led by SK Pace sports coaches focussing on developing Sports Leadership skills. Our Sports leaders have then worked directly with younger pupils throughout a range of activities and experiences such as Southgate's Boccia tournament, 2026 Sports Day and during weekly PE lessons with our Y1 and Y2 class. These were well received by pupils and high engagement was shown during quality assurance throughout the year.
Leah – 1 hour for 1 term £322.00	Swimming	- To work towards meeting the National curriculum KS2 requirements for swimming.	2 KS2 pupils were able to access swimming lessons this year. This was due to the developmental ability of the cohort and their ability to attend the sessions safely. Of the 2 pupils that attended: • 50 % can swim competently, confidently and proficiently over a distance of at least 25m. • 50% can use a range of strokes effectively, for example, front crawl, back stroke and breast stroke. • 100% can perform a safe, self-rescue in different water-based situations.

£787.00	Transport costs	- To provide transport to enable pupils to access planned activities provided by Outdoor Leaders as well as outdoor class trips. These trips provide the opportunity for pupils to be physically active.	4 minibuses were in use throughout the year to allow pupils to access a range of off-site, physical activities including local walks and swimming sessions. 9 Y1-6 pupils engaged in Bikeability sessions at Newsome School, achieving a certificate at a range of levels. This would not have been possible without the regular maintenance of the bus.
£250	Days cover for Healthy Lifestyles Co-ordinator to lead In House competitions.	- To co-ordinate an in house, accessible sports event for schools within the local community.	2 Y1-6 pupils, as well as Southgate's Sports Leaders engaged in Southgate's In-House Boccia tournament alongside 8 local primary schools. This has helped to build relationships within the community and promote inclusion. We will replicate this event next academic year, with a wider range of younger pupils from within school, building on the knowledge and successes of this event.
£7,713.00	Staff time (Ben Walker) – 6 hours per week	- For pupils to access small group cycling tuition on site. - For pupils to increase confidence on a bike and show progression in their cycling skills. - For pupils to engage in a range of active sessions to support a healthy lifestyle and work towards developing the required skill to engage in more complex experiences as they progress through school.	This year, we have continued to deliver Outdoor Enrichment which includes Forest School and Cycling. In total, 43 out of 45 Y1-6 pupils were able to access Outdoor enrichment (96%) 9 pupils learned to use a Balance bike 5 pupils engaged in an Outdoor adventure day 4 pupils engaged in day visits to local camping sites.

£3,390.00	Resources	- To purchase additional resources to support the effective delivery of Healthy Lifestyles curriculum. - To encourage pupils to be active throughout the day to promote a healthy lifestyle and support regulation.	Resources were purchased to support the delivery of our high quality Healthy Lifestyles curriculum and continued development of PE. This included tennis tables and agility tables as identified through the regular auditing of equipment and curriculum. Walking shoes have been purchased to support the pupils to access outdoor Enrichment experiences more effectively. Trampettes have been purchased to support with meeting pupils' sensory needs in the classroom environments by encouraging them to engage in vestibular and proprioceptive input. Pupils have been able to access PE with up to date and relevant resources, this has promoted a high level of engagement.
Total:	£16,410.00		

From our premium of £16,410, we have spent the full amount of £16,410.00 this year.

Plan for Sports Premium Spending 2026-27:

The Government has confirmed that the PE and Sports Premium will end after the academic year 2025-26 and will be replaced by a system called PE and School Sport Partnerships network. This is expected to be fully running from Spring 2027 therefore at this current time we are unclear of the funding amount we will receive.

Below is therefore a proposed strategy based on outcomes from the 2025-26 impact report.

Over the course of the academic year 2026-27, Key Stage 2 pupils will again have access to swimming lessons at Kirklees Leisure Centre. Additional staff will be allocated, where appropriate to ensure that all pupils are able to access these lessons in a safe and meaningful way and to support the increasing complexity of our younger pupils.

This will enable a sustained number of pupils to work towards meeting the following National Curriculum KS2 requirements for swimming:

- Swim competently, confidently and proficiently over a distance of at least 25m.
- Use a range of strokes effectively, for example, front crawl, back stroke and breast stroke.
- Perform a safe, self-rescue in different water-based situations.

Across 2026-27 we will be looking specifically at providing our KS1 and 2 pupils with accessible sporting experiences and competitions. This may be within the community or held in house in order for these to be developmentally appropriate for our increasing complexity of our pupils. We have successfully held accessible in-house competitions this year and therefore hope to build on this by hosting similar events for our younger pupils. Funding will be put in place to ensure this is staffed appropriately and resources such as transport are put in place. Specific funding will also be allocated to in-house resources that facilitate inclusive practice in PE lessons for all pupils.

We will continue our partnership with SK Pace who will work closely with our Healthy Lifestyles Leads and Personal Development Lead to provide engaging and accessible Enrichment opportunities for our pupils as well as professional development of new and less experienced teachers. This will ensure that all pupils receive a thorough, well balanced P.E offer, allowing them to develop a wider range of skills and further promote engagement, inclusivity and accessibility in lessons. The Healthy Lifestyles Leads will continue to ensure that high quality resources are available to all classes through regular auditing and purchase them as necessary to allow teachers to continue to deliver a broad, effective and accessible Healthy Lifestyles Curriculum.
